

2 VALVE ALUMINUM MANIFOLD ZEPPELIN

MADE IN THE USA

JB's cutting edge ZEPPELIN® two valve manifold series available in machined aluminum bodies. Built with our famous full flow design featuring dual o-ring and stem seats that retract completely from the flow path result faster evacuation and charging. The handles are made of soft rubber that are easier to grip with oily hands and are at full open/close in 2-1/2 turns. The sleek aluminum body is percisely machined, extremely durable and significantly lighter.

CONSTRUCTION
HANDLES
GAUGE SIZES
BOOTS

Machined Aluminum	Heavy Duty & Rugged
Contoured Rubber Soft Grip	Resists slipping from oil. Only 2 1/2 turns to full open/close
